October - Stephen Hatcher

Shop Tips & Tricks with Stephen Hatcher

Stephen Hatcher, past President of SPSC AAW, has demonstrated widely including 8 symposiums. Stephen has taught numerous week-long classes on woodturning at Arrowmont, Canyon Studios, John C. Campbell, and The Marc Adams School.

This month Stephen will present an overview of techniques he uses in the shop to solve many problems including mold, punky wood, filling voids, reducing tear-out, selecting adhesives, using mini-magnets, improving finishes, getting good photographs, as well as promoting yourself and finding good galleries.

Please bring your questions and a note pad. Several handouts will be provided and/or made available to the membership on the club website.

Editor's notes:

Don't forget that this is the last week to vote for board positions for AAW.

There is a myrtle tree coming down in Auburn on October 29th. See me at the meeting this Thursday or send an email to tappsturner@comcast.net for more details.

We are always in need of people to help out on the board. None of the work is really that involved, nor does it take an inordinate amount of time. The more people we have helping, the easier it is for everyone. We have some great plans for the coming year, but we do need volunteers. Talk to one of the board members at the meeting. With your help, we can continue to make this a great organization.

Letter from the President

This month we have lots of great news. First and foremost is that Steve Hatcher will be demonstrating this month. He will be giving us tips and tricks that he has learned over the years. This should be an extremely informative time for all of us.

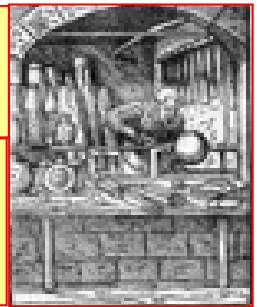

Next we have two new folks who have volunteered to help us all on the board of directors. We still need one more person who knows how to balance a checkbook. Les Johnson would like a break as treasurer. Please come to one of the board members at Thursday's meeting and let us know that you will step forward and help us all out. If more than one person comes forward that would be great because many hands make light work.

Next we have heard from the federal government and we have very little to do to get our 501C3 status confirmed. We are waiting delivery of a stamped copy of our articles of incorporation from the State of Washington. As soon as that document arrives we simply fax in the final forms and we are complete. That should be accomplished within the next week or so. **I would like to mention that we all owe Les Johnson a BIG THANK YOU!** He had the bulk of the work in completing the final paperwork. Over the years we had a miscellaneous category in our bookkeeping. They do not like that category and therefore Les had to go back for three years and give detailed information for this category. This took many hours of effort. They gave us very little time to complete this or we would have to start our application process over and as a result Les burned the midnight oil to complete this task. Now we know the requirements for the future reports to the federal government.

Finally we have rainy weather and cool wood turning. What a relief from the heat. Those of you who love the summer heat I am very sorry, but for me I love the rain and cool weather. Now we wait for the sap to descend and we will have great wet wood for turning. With the sap down the wood is much better for cutting and drying. Christmas is just around the corner and now is the time to be creating all of those wonderful gifts for friends and relatives. Hope all is going well for you in your efforts to create loving art. Be sure and share your ideas with all of us so we too can be inspired. I plan on making threaded boxes this year. Last year it was ornaments inspired by Tones Briggs. One of our customers decided pens were the way to go and as a result I just completed an order for eighty pens. There are lots of ideas. Please share and inspire us all with your ideas for turning.

See you all this Thursday. Keep learning and turning great things.

Dan
